Mail: me@macx.im

Tenerife, Spain

Design Engineer with 10+ years of experience turning designs into production-ready interfaces. I specialise in the gap between design and engineering taking Figma specs and building them into precise, maintainable code using React, Next.js, TypeScript, and Tailwind CSS. I've worked closely with designers, product managers, and engineering teams in SaaS and agency environments, and I care as much about how something looks and feels as how it's built. Fluent in French, English, and Spanish.

SKILLS

Languages & Frameworks: JavaScript, TypeScript, HTML5, CSS3, Next.js, React, Ember.js, Ruby on Rails, PHP
Styling & UI: Tailwind CSS, Sass, CSS Modules, Component Libraries, Responsive Design, Accessibility (WCAG)
Design Tools: Figma, Adobe Creative Suite, Prototyping, User Research, Design Systems
Development Tools: Git, GitHub, npm, Webpack, REST APIs
CMS Platforms: WordPress, Craft CMS, ExpressionEngine, Headless CMS
Databases: PostgreSQL, MySQL, Redis
Languages: French (Native), English (Fluent), Spanish (Fluent)

PROFESSIONAL EXPERIENCE

Freelance Design Engineer Jan 2021 – Present | Remote

Clients: Algolia, Arkadiko, Stacking DAO, Zest Protocol, Stacks Foundation

- Delivered design implementation work for Algolia, rebuilding UI components and enforcing visual consistency across their ecommerce merchandising product following a redesign
- Served as the primary design engineer for Arkadiko and Stacking DAO, translating Figma specs into production-ready React/Next.js interfaces
- Built and maintained a reusable component library in Next.js and Tailwind CSS, backed by a Figma component file, used across multiple client projects
- Worked across the full design-to-code pipeline — from reviewing designs and flagging implementation issues early, to shipping accessible, pixel-perfect interfaces
- Collaborated with product managers, designers, and engineers across multiple simultaneous client engagements

Tech.: Next.js, React, JavaScript, TypeScript, Tailwind CSS, Figma, Git, REST APIs

UX/UI/Front-End Developer at Intuo (now U4TM) Jan 2018 - Dec 2022 | Remote

- Implemented and maintained front-end features across a SaaS team management platform using Ember.js and Ruby on Rails, working within a 12-person engineering team in an Agile environment
- Served as the bridge between design and engineering — responsible for translating Figma specs into consistent, production-quality UI across the entire product
- Collaborated closely with designers and product managers during design sprints to catch implementation constraints early and ensure smooth design-to-code handoff

- Participated in design sprints involving client usability sessions, iterating on onboarding flows and dashboard interfaces based on direct user feedback
- Participated in code reviews, pair programming, and sprint planning as a regular contributor to team quality and velocity

Tech.: Ember.js, Ruby on Rails, JavaScript, HTML, CSS, PostgreSQL, Redis, Git, Agile/Scrum

Front-End Developer at Spade May 2012 - Oct 2017 | Brussels, Belgium

- Delivered 15–20 custom websites for clients ranging from startups to EU organizations, as part of a small digital agency team
- Built responsive, mobile-first templates and themes for WordPress, Craft CMS, and ExpressionEngine with custom PHP
- Worked directly with clients, designers, and project managers from requirements through delivery, providing technical guidance throughout
- Maintained focus on performance, accessibility, and cross-browser compatibility across all projects

Tech.: HTML, CSS, JavaScript, jQuery, PHP, MySQL, WordPress, Craft CMS, ExpressionEngine, Git

EDUCATION

Master's Degree (M.A.) in Applied Foreign Languages - CAWEB Specialization (Multilingual Web Communication) Sep 2009 - Jul 2011 | University of Strasbourg, France

Specialized program combining web development, UI/UX design, and multilingual digital communication. Coursework included front-end development, responsive web design, multilingual site architecture, digital marketing, visual communication, and web project management.
